Fung brings Gov. Christie to Rhode Island, but they already share too much

Both share a failed economic approach

PROVIDENCE, RI -- "It's no surprise that Allan Fung is bringing Chris Christie to campaign for him; Christie seems to be the kind of governor Fung wants to be. They share a cavalier attitude towards credit ratings, and between the two of them they have presided over 9 credit rating downgrades and two scandals. They both oppose raising the minimum wage. Chris Christie's failed leadership is not working for New Jersey, and it isn't going to work for Rhode Island. Allan Fung will make Rhode Island's economy worse," said Peter Baptista, Rhode Island Democratic Party Coordinated Campaign Director.
